## Certificates of Compliance

### Reduction of Toxics in Packaging

**CONEG CERTIFICATION/MODEL TOXICS IN PACKAGING COMPLIANCE** – Western Pulp Products Company certifies that the molded fiber packaging components manufactured and supplied comply in all respects to the package requirements for heavy metals of the CONEG Model Legislation;

- 1) We certify that the regulated metals – lead, mercury, cadmium, and hexavalent chromium -- were not intentionally added to any package or packaging component during the manufacturing process.
- 2) We further certify that the sum of the incidental concentration levels of lead, mercury, cadmium and hexavalent chromium present in any package or package component does not exceed 100 parts per million by weight.
- 3) We will maintain adequate documentation of this certification for inspection upon request.

**CALIFORNIA TOXICS IN PACKAGING PREVENTION ACT (AB 455, AB 2021, SB 774)** - Western Pulp Products Company certifies that the molded fiber packaging components manufactured and supplied comply in all respects to the package requirements for heavy metals of the California AB 455 Legislation and its amendments AB 2021 (2006) and SB 774 (2008); namely, that the sum of the concentration levels of lead, cadmium, mercury, and hexavalent chromium present in any package *or* package component do not exceed 100 parts per million by weight. Additionally the identified restricted hazardous substances stated are not intentionally added nor directly employed per product knowledge.

**EUROPEAN UNION'S DIRECTIVE ON PACKAGING AND PACKAGING WASTE (94/62/EC OF 20 DECEMBER 1994, AS AMENDED BY 2004/12/EC) AND THE CEN PACKAGING STANDARDS (2005/C 44/13)** pertaining heavy metals content requirements - Western Pulp Products Company certifies that the molded fiber packaging components manufactured and supplied comply in all respects to the package requirements for heavy metals of the European Parliament and Council Directive 94/62/EC on packaging and packaging waste; namely, the sum concentration levels of lead, mercury, cadmium and hexavalent chromium present in packaging or packaging components do not exceed more than 100 parts per million by weight. Additionally, any molded fiber packaging component manufactured and supplied that is part of a finished packaged product also meets the **Essential Requirements on the Composition and the Reusable and Recoverable, Including Recyclable, Nature of Packaging in Annex II of Directive 94/62/EC.**

These certificates will continue in full force and effect until terminated by posted notice on our website at [www.westernpulp.com](http://www.westernpulp.com). For further advice specific to our products and requirements, please, contact my office at (800) 547-3407 or by e-mail at [rickh@westernpulp.com](mailto:rickh@westernpulp.com).
