D2C™ Fulfillment Shippers

Introducing the most versatile direct-to-consumer fulfillment shipper.

The new D2C shippers are designed to meet the needs of today's high-volume fulfillment market.

- Trays separate easily, saving labor
- Protects diverse product and container shapes
- Smooth finish, clean edges enhance presentation

Like all of Western's shippers, the new design offers the best balance in versatility, economy, performance and sustainability.

Now available in three sizes.

S	D2C 6.88 Shipper	
	Cavity Length	137 mm
	Cavity Diameter	86 mm
	Shippers/Pallet	2800 ea.

M	D2C 10.95 Shipper	
	Cavity Length	229 mm
	Cavity Diameter	86 mm
	Shippers/Pallet	1760 ea.

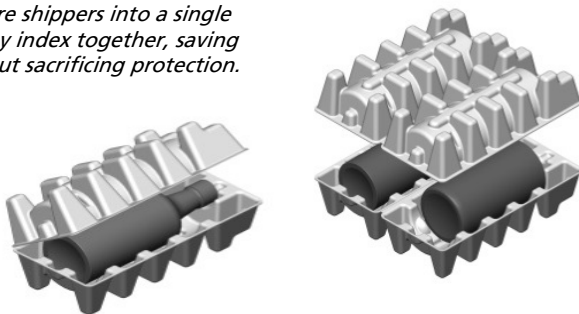

L	NEW! D2C 12.00 Shipper	
	Cavity Length	239 mm
	Cavity Diameter	97 mm
	Shippers/Pallet	1024 ea.

Put 2 or more shippers into a single box and they index together, saving space without sacrificing protection.

Low cost protection. Tested and proven.

- D2C shippers perform well in the test labs and in the field.
- Impact-absorbing geometries are designed to withstand the hazards of today's distribution environment.
- Western's line of molded fiber shippers have repeatedly met the high standards required by FedEx, UPS, and ISTA test labs.

D2C Shippers are designed to fold as a clamshell for single items, or can be used in multiples to protect two or more items.

Environmentally Responsible.

- All D2C products are made in the U.S.A. and contain a minimum 99% post-consumer recycled paper content based upon five years of third-party independent certification.
- You can learn more about Western's responsible manufacturing practices at westernpulp.com.
